Dear Mrs Kenyon

RE: ██████████ - SUCCESS 4 KIDS

We are writing to express our appreciation for the work you have done throughout this academic year with our son ██████████.

We decided to bring ██████████ to you in October 2006 because he lacked confidence in his English work and also to help to improve his presentation skills within all his subjects.

██████████ will be finishing his time with you today, a more confident and literate young man. A child who now reads and enjoys a wider range of reading materials, who can present his work in a neat and tidy form and who can converse openly in class on any given topic. Indeed when we received ██████████ end of year report his increase in confidence was commented on by several of his teachers, as was an overall improvement in presentation.

We are so happy with the work that you have done with ██████████ that we hope to enroll our daughter ██████████ in your school in order to help her through her final year at school and will not hesitate to bring ██████████ if needed when he also begins his final year.

The thing that we like most about your teaching methods is the one to one attention you have given to ██████████, your acceptance of ██████████ as an individual and your willingness to personalize his lessons accordingly.

You have given ██████████ a great gift and we thank you for your tireless support of him in the last academic year. Please do not hesitate to use us as a reference for any prospective parents.

Yours sincerely

██████████ ██████████
