

21 March 2007

Dear Diane

I am writing to thank you for your help with [REDACTED] numeracy and to say how pleased we were with her report at parent's evening this week.

Her teacher expressed surprise and *delight in the quick and noticeable change* in both her confidence and new found ability in this subject. She stated [REDACTED] hand is often up to answer the questions and she is even offering to explain to those sat near to her.

As her teacher is unaware of your assistance (sorry, but [REDACTED] wanted to keep it quiet and astound them with her new found confidence!), we just had to voice a quiet pleasure in the remarkable change in her performance!

Anyway, thanks again

[REDACTED]

[REDACTED] and [REDACTED]
